Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 17 June 2004 has been entered.

Allowable Subject Matter

The indicated allowability of claims 1-4, 6-10, 14, 31-36, 38 and 42-72 is withdrawn in view of the newly discovered reference(s) to Fishbane (5,122,145). Rejections based on the newly cited reference(s) follow.

Election/Restrictions

Applicant's election of Group I, claims 1-4, 6-10, 14, 43-47, 50-61 and 70-72 in the reply filed on 04 December 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 11-13, 15-36, 38-42, 48, 49 and 62-69 are withdrawn from further consideration

Art Unit: 3733

pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. It is noted that prosecution is currently open in this application and a requirement for restriction is appropriate at any time during prosecution when it becomes apparent that it is necessary notwithstanding that the optimal time is prior to or concurrent with a first action on the merits in the case.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not properly state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

Specifically, the language of the declaration should read: "I acknowledge the duty to disclose information which is material to patentability of this application in accordance with Title 37, Code of Federal Regulations Section 1.56."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6-10, 14, 43-47, 50-61 and 70-72 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fishbane (5,122,145).

Fishbane discloses the claimed invention including an anchoring means, e.g. 30, 44, an alignment device, e.g. 18, 24, and a T-shaped guide component 12 (see, e.g., Figs. 2 and 3). The anchoring means comprises a pin and is oriented transversely to a long axis of a bone. The alignment means allows five degrees of freedom and is continuously adjustable. The guide comprises a stem portion and a pair of arms having lateral and medial holes or guide bushings therein. The holes are at least capable of being used as a drill guide. The center portion of the arms is capable of having clamped or attached thereto a navigation tracker. It is noted that the navigation tracker is not positively recited and a mounting location is equivalent structure to the recited means for attaching.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Comstock whose telephone number is (571) 272-4710.
